NCR Fusion Supported WebEOC Boards

NCR Calendar Board	*Incident Independent*

This is a board to capture events, training, drills, meetings, etc. and displays the information in a calendar format. There are four categories used to identify the entries: NIMS, Regional Planners, Training and Exercises, and Emergency Managers

Features

This board offers many NCR standard features which include:

- *Add Event* to create calendar events and specify the type of event.
- *Edit Events* button to review the scheduled items and edit them as needed.
- Filtering the displayed data by type and category. This is done by selecting the associated filter dropdown from the list at the top right-hand corner of the board. To return to *All* calendar entries, select the *All* choice from the filter dropdown.
- View options to change the display from a full month to a particular day, week, work week, or year.
- Buttons to switch to either the previous or next month.
- Color coded items that reflect the type of event. (Use the legend for assistance on calendar event types.
