# Supported Local Core WebEOC Boards

| EOC Sign In Board (versions vary) | *Incident Based* |
|---|---|

**Description:** The EOC Sign In board tracks individuals working in the EOC/Incident. Users access the board to identify when they signed into and out of the EOC/Incident. The board displays the user's name, their position, location, phone number, date/time signed in and out.

**Views:** This board offers a list view and an input/edit view for signing in and out or to edit supplied information.

**List View** - This view lists all users signed in through this board.

**Default Features:**

- Search capability on the Name field for a specified value
- Data filtering by the status value through the "Filter by" dropdown list options
- Sort capability on any of the displayed fields by clicking on the corresponding column header/field title.
- New record creation by clicking the "Sign In" button
- Record editing through the "Edit/Sign-Out" button
- Print to PDF option to display a report of the list view

### Variation 1: Team Information with Color

This board was modified for Loudoun County and City of Fairfax to capture Team/Shift information and display this information on the list view. In addition, the field has color coordinated backgrounds to match the shift name.

### Variation 2: Team Information

This variation of the list view captures the Team/Shift information without color coding of the field (cell) display.

### Variation 3: Location Information

This variation of the list view, deployed to Loudoun County, omits the Location information since the board is used to record users only physically at the EOC.

# Supported Local Core WebEOC Boards

| Variation 4: Total Time |
|---|
| This variation, deployed to Arlington County, uses code to calculate the total time the user was signed in based on the signed in and out date/times |

| Name | Agency | Location | Phone # | Sign In Date/Time | Sign Out Date/Time | Total Time | Action |
|---|---|---|---|---|---|---|---|
| Stephen Del Giudice | ARL ESF 01 - Transportation | EOC | 7032283518 | 08/03/2011 09:52:23 | 08/03/2011 12:14:07 | 02:21:44 | Edit/Sign Out |
| Michelle Hudson | ARL ECC - Emergency Communications | EOC | 7032287507 | 08/03/2011 09:52:24 | 08/03/2011 12:13:54 | 02:21:30 | Edit/Sign Out |

| Variation 5: Second Phone Number |
|---|
| This board, deployed to Prince William and Fairfax Counties, was modified to include a second phone number field. |

| Variation 6: Chart |
|---|
| This board, deployed to Loudoun County, uses their EOC layout/seating chart and displays ICS specific colors as the seats are filled for the telephone number associated with the seat. It also provides information of who is sitting at a number by clicking the number |

# Supported Local Core WebEOC Boards

**Input (Edit) View** – This view enables the user to specify their location and a phone number as well as when they are signing into the EOC/Incident.

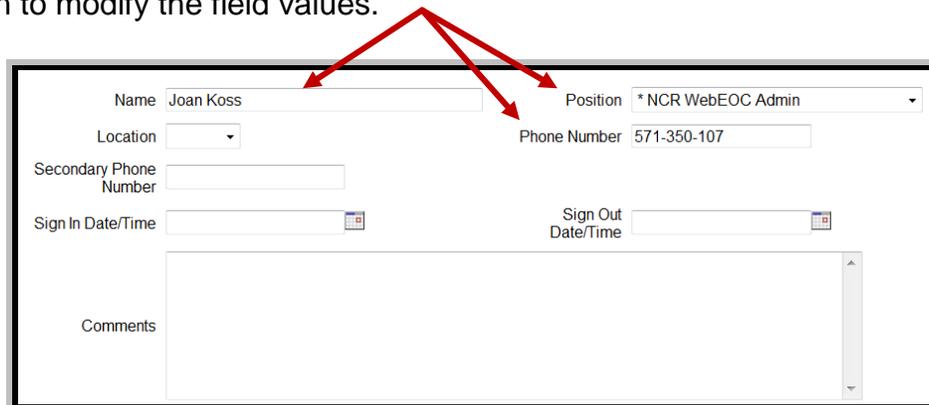

**Default Features:**

- Date/Time picker code to facilitate proper date format
- Drop down lists to maintain data consistency
- Spell Check button to ensure correct spelling
- Comments field for the user to record additional information
- Name, Position and Phone Number information captured through code from the secondary sign-in information supplied by the user.

## Variation 1: Auto Populate Fields with Edit Option

Name, Position, and Phone Number information is automatically captured from data supplied on the additional logon information screen enabling the user the option to modify the field values.

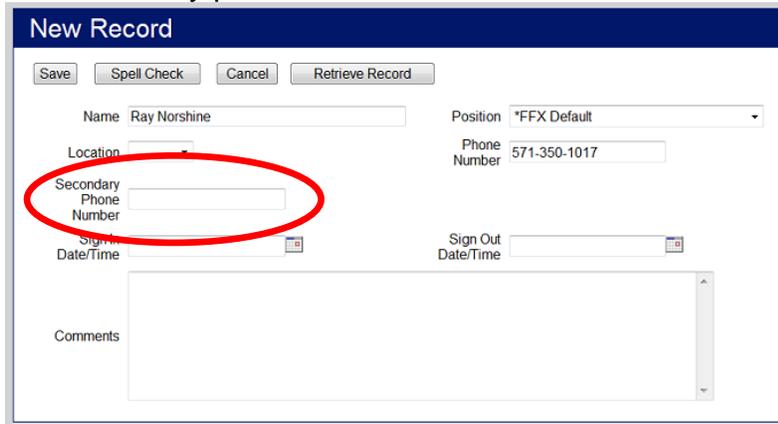

## Variation 2: Location Information

This variation of the input view, deployed to Loudoun County, omits the Location information since the board is used to record users only physically at the EOC.

# Supported Local Core WebEOC Boards

**Variation 3: Second Phone Number**

This variation of the input view, deployed to Prince William and Fairfax counties, includes a secondary phone number field.

**Variation 4: Kiosk Display and Meal Indicator**

This variation deployed to Fairfax County includes a special input view to be used on an iPad as a kiosk for users to sign in as they enter the EOC. This version also includes two checkboxes to indicate if the person will be needing a meal indicated by the checkbox.
