

# Supported Local Core WebEOC Boards

Press Release Board – Simple (Version 1.0) *Incident Based*

**Description:** This board provides press release information. It may be text, a link to a website or a downloadable file.

**Views:** There are two list views for this board—one for default users with view only capability, the second for users who have privileges to publish press releases. The designated users will have an input view.

**List View** – This view lists all press releases issued for accessed incident.

FFX - Training (2011)				
Press Release				
Date/Time	Title	Link	Download	Text
05/04/2011 09:54:26	Test only			Text
