

# Supported Specialty WebEOC Boards

Heating/Cooling Center Board (Version 1.0)	Incident Independent
<b>Description:</b> This board captures heating/cooling shelters and the current status.	
<b>Views:</b> This board provides one input view to add a shelter and its base information. The board uses board permissions on the list view to determine if the user has the ability to add/edit shelter records or can only view the information.	
<b>List view</b> – This view lists the heating/cooling centers as they are recorded during an incident.	
	
<b>Default Features</b> <ul style="list-style-type: none"><li>• Data filtering by facility type or shelter status by selecting from the filter drop down list.</li><li>• <i>Details</i> link to access additional shelter details</li><li>• Status background colors for easy identification of a record's status or power status.</li><li>• Mapping capability</li><li>• Reset All Records button to change the shelter back to default statuses: status to Closed and the Power Status to Commercial.</li><li>• Display of the EOC status in the board header</li></ul>	
<b>Variations:None</b>
