Supported Specialty WebEOC Boards

NIMS Compliance Tracking Board (Version 1.0)   *Incident Independent*

Description: This board provides a mechanism to track NIMS Compliance Training.

Views: This board uses a list view for displaying employees within a department and status information for each ICS class. There is also a dashboard view where the information is aggregated and displayed to provide decision makers insight on the status of the various metrics.

List View – This view displays the department's people and the status of their ICS classes.

Default Features

- *Edit* button to modify a person's training information
- *New Record* button to create a new employee record
- Search capability against First Name, Last Name, Rank/Title, and Department
- *Print to PDF* button to create a report with the list information without the buttons, filter and search buttons.

Variations: None

**Edit View** – This view enables the user to enter and update employee and training information.

Default Features

- Drop down lists to maintain data consistency
- Browse button to navigate to attachments.

Variations: None
