

# Supported Local Core WebEOC Boards

Polling Status Board (Version 1.0)

*Incident Independent*

**Description:** This board captures Polling locations and the status.

**Views:** This board provides two input views for designated positions. One is to add polling locations and its base information. The other input is the activation edit for changing the status of the polling location and providing remarks relative to the polling location. There are multiple list views based on the accessibility level granted.

**List view** – This view lists all the entered Polling Locations for the jurisdiction.

Location Name	Precinct #	Precinct Name	Type	Status	Last Updated	Radio Channel	Congressional District	Supervisor District	Senate District	House District	Remarks	Action
Dale City ES	601	Dale	Primary	Open	11/02/2017 11:11:01	5/E	11	Neabsco	29	52		<a href="#">Details</a> <a href="#">Edit</a>
Bennett HS	203	Bennett	Alternate	Relocated	11/02/2017 11:09:35	2/B	10	Coles	28	51	Remarks	<a href="#">Details</a> <a href="#">Edit</a>
Brentsville District HS	101	Brentsville	Primary	Closed	11/02/2017 11:08:22	2/B	1	Brentsville	28	51		<a href="#">Details</a> <a href="#">Edit</a>

## Default Features

- Data filtering by senate district, house district, supervisor district, congressional district, or radio channel by selecting the corresponding filter dropdown
- *Details* link to access additional Polling location information
- Status background colors for easy identification of a record's status
- Search capability on the Precinct Name, Precinct Number, Polling Name, Congressional District, Senate District, House District and Radio Channel
- Column sorts on most of the column headers
- *Edit* link (except on the view only list) to edit the polling status information. Information relative to the polling location must be edited from the Full admin view.
- *New Record* link to add a new polling location record. Only available from the full admin view.

**Variations: None**

# Supported Local Core WebEOC Boards

**Input/Edit View** There are two views depending on access for editing polling information. One is for adding/modifying the basic polling location information and the other is for updating the status and providing remarks relative to the location.

The screenshot shows a web form titled "Enter Record Data:" with the following fields and controls:

- Polling Location Name: Text input field
- Polling Location Type: Dropdown menu
- Congressional District: Dropdown menu
- Supervisor District: Dropdown menu
- Precinct Number: Text input field
- Precinct Name: Text input field
- Entry Date: Date picker with a "Current Date/Time" button
- Location Status: Dropdown menu
- Polling Location Address: Text input field with a "Map" button
- Radio Channel Group: Dropdown menu
- Senate District: Dropdown menu
- House District: Dropdown menu
- Remarks: Large text area with a vertical scrollbar

At the bottom of the form are "Cancel" and "Save" buttons.

## Default Features

- Drop down lists to maintain data consistency
- Date/Time Picker for proper date/time format
- Maps Add-on Enabled

**Variations: None**
