Repair Record - This view is where the repair information is recorded.

The screenshot shows a web form for recording repair information. The fields are as follows:

- Report Date: 01/30/2015 (with a calendar icon)
- Issue: Broken something
- Current Location: 22
- Repair Status: Repaired (with a dropdown arrow)
- Repair Cost: \$20.5
- Notes: A text area with a light blue header bar and a vertical scrollbar on the right.
- Add Notes: A label positioned to the left of the Notes text area.

Default Features

- Date/Time Picker for date formatting
- Dropdown field to maintain data consistency
- Update code on the Notes field to maintain accountability and know who make the notes record.
- *Spell Check* button to ensure correct spelling
