Supported Specialty WebEOC Boards

| THIRA Tracking Board	Version 1.0	*Incident Independent Based*

Description: This board provides a mechanism to track Threat and Hazard Identification and Risk Assessment (THIRA) related plans, enhancements, or procedures by OEM Staff.

Views: This board uses two list views for displaying the same information. The Edit view is for creation, removal and editing of data. The View displays the data with no add or edit capability.

List View – This view displays documents, the associated document types, groups, document statuses, associated dates and the OEM lead.
