

NCR Fusion Supported WebEOC Boards

NCR Dashboard Board *Incident Independent*

This is a board to display multiple views of different boards to gather information in one stop. The board includes information from the NCR Infrastructure, NCR EOC Status, NCR General Announcements, NCR Significant Events, Weather Information and RSS Feeds.

This board has several tabs that are clicked to view different information. No inputs are made to this board. It is for viewing information only.

Features

This board offers several features which include:

- Tabs to move among the types of data to view.
- Scroll bars appear when necessary to view additional information.
- *View* buttons to see additional information.
