Shelters Board (Version 1.0)

Incident Independent

Description: This board captures shelter status as well as shelter specifics—name, location, power source, whether Red Cross certified, pet friendly capacity, and available spaces.

Views: This board provides two input documents for designated positions. One is to add a shelter and its base information. The other input document is the activation edit for changing the status of the shelter and providing staffing and population numbers. There are multiple list views based on the accessibility level granted.

List view – This view lists all the entered shelters for the jurisdiction.

Shelter Name	Shelter Type	Current Status	ARC	MN	PF	Maximum Capacity	Staff Population	Shelter Population	Available Space	Power Status	Last Updated	Detail
Audry Moore Recreation Center	Not Opened	CLOSED	+	♿		0	0	0	0		07/21/2011 10:35:43	View Map

Huntington Community Center	Not Opened	CLOSED				0	0	0	0		01/12/2011 10:15:40	View Map

Default Features

- Data filtering by shelter type or shelter status by selecting the corresponding filter button
- View button to access additional shelter details
- Status background colors for easy identification of a record's status
- Mapping capability

Variations: Locality Filter. Prince William County hosts two localities on their system and they share the shelter board. Therefore there is a filter by Locality.

Input/Edit View There are two views depending on access for editing shelter information. One is for adding/modifying the basic shelter information and the other is for supply additional detail information if the shelter is activated.

Basic Shelter Data:		
Shelter Name	<input type="text"/>	
Street Address	<input type="text"/>	<input type="button" value="Get Address"/> <input type="button" value="Map It"/>
Phone #	<input type="text"/>	Emergency Phone # <input type="text"/>
ARC Approved <input type="checkbox"/>	Medical Needs <input type="checkbox"/>	Pet Friendly <input type="checkbox"/>
Shelter Profile	<input type="text"/>	<input type="button" value="Browse..."/>
Dormitory Capacity <input type="text"/>		Evacuation Capacity <input type="text"/>
Shelter Activation Data:		
To be filled out when the shelter is activated. When entering shelter capacity, use either Dormitory or Evacuation capacity as identified above		
Shelter Manager	<input type="text"/>	Shelter Manager Phone # <input type="text"/>
Shelter Type <input type="text"/>	Shelter Status <input type="text" value="CLOSED"/>	Current Shelter Power <input type="text"/>
Capacity <input type="text"/>	Staff Population <input type="text"/>	Current Shelter Population <input type="text"/>
Staff on Site:		
List each Staff Member by Name, Title and Phone Number. One person per line. (L.e. Jim Smith, Paramedic, (555) 123-3451)		
Amateur Radio	<input type="text"/>	<input type="text"/>
American Red Cross	<input type="text"/>	<input type="text"/>
EMS/ Rescue	<input type="text"/>	<input type="text"/>
Health Dept	<input type="text"/>	<input type="text"/>
Family Services	<input type="text"/>	<input type="text"/>
Other Staff	<input type="text"/>	<input type="text"/>
Remarks	<input type="text"/>	<input type="text"/>

Default Features

- Drop down lists to maintain data consistency
- Spell Check button to ensure correct spelling
- Mapper Enabled

Variations: Locality dropdown field. Prince William County hosts two other localities and they share the shelter board. Therefore there is a dropdown field to specify the locality for the shelter.
