

# Supported Specialty WebEOC Boards

## EOC Check off Board (Version 1.0) Incident Dependent

**Description:** The EOC Check Off board provides a checklist of items for opening and closing the EOC.

**Views:** This board offers one main list view that lists all the checklist items with Opening items in one column and Closing items in the other column relative to the EOC.

**List View -** This view lists the Opening and Closing checklist items for the EOC.

### Default Features:

- Record editing or updating through the *Update* button
- Checkmarks to indicate an item has been completed and the date/time stamp appearing at the right of the checklist item to indicate when it was completed.

**Variation:** MWAA has different items but the board layout and concept is the same.

**Update (Edit) View –** This view offers the checklist items for marking as complete as well as the opportunity to leave a comment.

### Default Features:

- Spell Check button to ensure correct spelling
- Checkboxes for indicating an item has been completed
- Notes field for capturing notes relative to the EOC checklist.

**Variations:** MWAA has different items but the board layout and concept is the same.
