

# Supported Specialty WebEOC Boards

<b>Facilities Board</b> (Version 1.0)	<i>Incident Based</i>																																			
<p><b>Description:</b> This board provides a mechanism to capture pre-identified facilities and related status information.</p>																																				
<p><b>Views:</b> This board uses various lists displaying the same information. They vary in the buttons available that drive access permissions.</p>																																				
<p><b>List View –</b> This view displays the critical facilities entered along with the status information. There is a administrator list view that provides the opportunity to update all facilities' statuses to <i>Status Pending</i>. Conversely, all records can be reset to <i>Normal</i>.</p>
