Input View – Accidents This view enables recording and managing officer accident information.

The screenshot shows a web form titled "Edit" for recording accident information. The form is organized into several sections:

- Accidents Section:** A header bar for the main form area.
- Unit:** A text input field.
- County Owned:** A dropdown menu currently set to "Yes".
- Information:** A large text area for entering details, with a vertical scrollbar on the right.
- Actionable Item:** A list of four checkboxes:
 - Industry Safe
 - Email County RM
 - Police Report
 - Saved to Laserfiche
- Entered By:** A text input field containing the name "Joan Koss".
- Date/Time:** A date/time picker field with a "Current Date/Time" button next to it.

At the bottom of the form, there are two buttons: "Cancel" and "Save".

Default Features

- Drop down lists to maintain data consistency
- Date/time picker to ensure proper date formatting
- Checkboxes for actionable items
- Update code for the Information field to record who added the data and when
