

# Supported Specialty WebEOC Boards

Jurisdiction Status	Dashboard View
<p><b>Description:</b> This board is a view that pulls data from various existing boards to create a dashboard of information for the jurisdiction.</p>	
<p><b>Views:</b> There is one display view for this board.</p>	
<p><b>Display View –</b> This display shares status information from several boards to provide an overview of information for the jurisdiction.</p>	
 <p>The screenshot shows a dashboard for Montgomery Status. It features a header with the Montgomery County logo and the title 'Montgomery Status'. Below the header are nine data cards arranged in a 3x3 grid. Each card has a title, a status or value, and a source/last updated timestamp. The cards are: Public School Status (Normal), MC Government Status (Normal), Power Outages (0%), Active Shelters (4), Shelterees (1409), Displaced Pets (1), Critical Facilities Impacted (3), Nursing Home/Living Facilities Impacted (1), and Impacted Dams (6).</p>	
<p><b>Default Features</b></p> <ul style="list-style-type: none"> <li>• There is no direct entry into this view. All the information is extracted from existing boards within the system.</li> <li>• Color coded status fields for enhanced identification.</li> </ul>	
<p><b>Variations: None</b></p>	
<p><b>Input View –</b> There is no input view. Data originates from other boards.</p>	
<p><b>Variations: None</b></p>
