

Supported Specialty WebEOC Boards

Vehicle Tracking Board (Version 1.0) *Incident Independent and Dependent*

Description: This board is utilized by the Town of Herndon's Public Works personnel to document their vehicles and track tasks during an incident.

Views: There are three list views for this board. One for creating, editing and deleting records. A second list view for creating and editing records and a third that can view only the information.

List View – This view lists the vehicles recorded by the Public Works Department and utilizes color coding for the vehicle status.

ID	Type	Vehicle Name	Status	Notes	Action
45	Big Truck	450	Out of Service	test	Edit Details
56	Loader	Loading Truck	Other	test	Edit Details
765	Refuse Truck	The Truck	Other	xxxxxxxxxxxx	Edit Details
653	Roll Off Truck	Roller	Out of Service	notes about the truck	Edit Details
87	One Ton Truck	Bigger Truck	In Service	testing an update	Edit Details

Default Features

- *New Vehicle* button to create a new vehicle record. (Not available on the view only list.)
- *View Tasks* button to view current tasks assigned to all vehicles.
- *Details* button to view details for the corresponding vehicle record from the list. The details section is where tasks for the vehicle may be assigned.
- *Edit* button to modify the corresponding vehicle record. (Not available on the view only list.)
- Color coded vehicle status to easily identify vehicles with issues.
- Search capability on the Vehicle Name and Notes.
- *Print to PDF* feature to produce a printable view without the various buttons.
- *Filter* (by Status and Vehicle Type) buttons to narrow the scope of records displayed.

Variations: None
